## GENERAL EDUCATION CORE CURRICULUM

### AREA I: MATHEMATICS AND NATURAL SCIENCES

- 1) Two semesters of mathematics. At least one semester must be a calculus course (MA 19, MA 119, MA 120, MA 145, MA 146, MA 171, MA 172, MA 221, MA 245, MA 273).
- 2) Two semesters of a natural science. Any two courses in any of the natural sciences, as well as AY 110 or PY 261, fulfill this requirement. NOTE: Psychology majors cannot use PY 261 to fulfill this core science requirement.

#### AREA II: HISTORY, AND THE SOCIAL AND BEHAVIORAL SCIENCES

- 1) Two semesters of history. HI 10 plus one 200-level course. CL 115-116 (Greek and Roman Civilization) may be used to fulfill this requirement.
- 2) Two semesters of anthropology (except AY 110), communication (CO 100 and CO 130 only), economics, politics, psychology, or sociology. Both courses may be in the same department or they may be in two different departments. Also includes ED 241 for Certificate students only.

### AREA III: PHILOSOPHY, RELIGIOUS STUDIES, AND APPLIED ETHICS

- 1) Two semesters of philosophy. PH 101 is required followed by a 200-level course.
- 2) Two semesters of religious studies. RS 101 is required followed by a 200-level course.
- 3) One additional course in philosophy, religious studies, or applied ethics.

### AREA IV: ENGLISH AND VISUAL AND PERFORMING ARTS

- 1) Three semesters of English. EN 11 and EN 12 are required, plus one semester of English literature with a course number between EN 100-199. Writing courses (EN/W) do not fulfill the core literature requirement. Selected courses offering literature in translation may also fulfill this requirement see listings under classical studies as well as modern languages and literatures.
- 2) Two semesters of visual and performing arts.
- 3) One semester must be in the area of art history; film, television & media arts history; music history; or theatre history. The other semester may be selected from any of the three-credit course offerings in art history; film, television & media arts; music; studio art, and theatre.

### AREAV: MODERN AND CLASSICAL LANGUAGES

1) Two semesters at the intermediate level of any language listed among the offerings of the Department of Modern Languages and Literatures or the Classical Studies Program.

# UNDERGRADUATE ONLINE REGISTRATION SCHEDULE FALL 2015

FRIDAY, March 27: Course booklet goes online (paper copies for faculty advisors)

MONDAY, March 30 to THURSDAY, April 2: Advising Period and obtain PIN

FRIDAY, April 3 to MONDAY, April 6: Undergraduate Easter recess

TUESDAY, April 7 to MONDAY, April 13: Advising Period and obtain PIN

TUESDAY, April 14: Online registration for Class of 2016 and PT matriculated undergraduates with 90 or more credit hours completed.

WEDNESDAY, April 15: Review by departments and schools and late registration for Class of 2016

THURSDAY, April 16: Online registration for the Class of 2017 and PT matriculated undergraduates with 60-89 credit hours completed.

FRIDAY, April 17: Review by departments and schools and late registration for Class of 2017

MONDAY, April 20: Online registration for Class of 2018 and PT matriculated undergraduates with 59 or less credit hours completed.

TUESDAY, April 21: Review by departments and schools and late registration for Class of 2018

THURSDAY, April 23: Online registration system is turned back on for all classes and stays on until add/drop is over in Fall with waitlist on:

8:30 a.m. - Class of 2016

9:30 a.m. - Class of 2017

10:30 a.m. - Class of 2018

### SCHEDULE OF ONLINE REGISTRATION ACCESS FOR EACH CLASS

Start Time	Last Name
8:45 a.m.	Varsity Fall Athletes
10:50 a.m.	L-R
12:20 p.m.	A-D
1:50 p.m.	S-Z
3:20 p.m.	E-K

Note: These alphabetical groupings will be in the reverse order in Spring 2016.

### STUDENTS: How to find your Faculty Advisor?

Students can look up the name of their Faculty Advisor through my.Fairfield.edu, via the Student Tab, and then click "My Academics," click "Advising" under the Quick Links (left side of the screen). Then click "Advisor Name," select the current term (for example, 201509 is Fall 2015), and click "Submit."

## UNDERGRADUATE REGISTRATION PROCESS

- Students with a financial or Dean of Students hold will not be able to register.
- · Students need to see their faculty advisor prior to registration to discuss course selection and to receive their PIN.
- · Students are NOT excused from class to register. This includes cutting class or leaving class early.
- Online registration will be by class year: one day for all students in each class to register for his/her courses. Classes will go online in
  alphabetical groupings at 8:30 a.m. on their designated day. Fall Varsity Athletes will precede the alphabetical groupings.
- Students will register for major, minor, core and elective courses on their class registration day and are limited to a maximum of 20 credits.
- The online registration system will be active for each class until 11:59 p.m. Then the student's online registration and PIN will be turned off until Thursday, April 23rd when add/drop begins.
- There will be a day in between each class registration for departments to review registrations and for students who missed their registration to register in person in the Registrar's Office.
- The University reserves the right to cancel courses for which there are insufficient registration or change time codes or professors as deemed necessary.
- Most courses will be open during the online registration period. Some departments (with courses that have specific populations) may incrementally increase the maximum number of spaces in some of their courses by class.

#### WAITLIST COURSES

The waitlist for courses will be turned on at the beginning of online registration, except for courses with maximums that are increased incrementally.

- When a space opens up in a class, the first student on the waitlist will be notified via his/her Fairfield student e-mail account, with instructions on how to register for the waitlisted class. **They will have 24 hours from the time the email is sent to register for the class.** If there is a conflict in his/her schedule, they will have to resolve that issue before registering for the waitlisted class. If they fail to register for the class by the deadline stated in the email, they will be taken off of the waitlist for that class.
- The use of the wait lists and the process of notifying students will run from Friday, May 1 through Friday, August 28. During this period, the Registrar's office will not honor write-ins for closed courses from faculty. The electronic waitlist will be the only mechanism for filling available openings in courses. After August 28, students can register for classes with open seats on a first come, first serve basis. During the Add/Drop period of September 1-8, the Registrar will accept write-ins from faculty for closed courses.

### DEGREE EVALUATION ON THE WEB

All matriculated undergraduate students have a degree evaluation online, showing the requirement of his/her program, including core, majors, and minors. To run a degree evaluation on **my.Fairfield.edu**:

- 1) Go to the home page of my.Fairfield.edu
- 2) Click on the blue button with the graduation cap that says "Degree Eval" This will take you directly to your degree evaluation.

The Class of 2016 will continue to use "CAPP" – the same format that you have used in the past. The Classes of 2017 and 2018 will use "Degree Works" that was rolled out last semester. Students should print a degree evaluation and bring it with them when they meet with their advisor.

### DIRECTIONS FOR STUDENT SELF-SERVICE REGISTRATION SYSTEM

Student Self-Service accounts are accessed through my.Fairfield.edu. Every student has an account on this system. If a student needs assistance with his/her NetID or password, they should contact the Help Desk at (203) 254-4069 or ext. 4069 on campus. After logging in to my.Fairfield.edu:

- 1) Click "Student" tab, Select Registration
- 2) Click "Add or Drop Classes" in the Quick Links area (left side of screen)
- 3) If prompted, go through the steps for Electronic Promissory Agreement
- 4) From the Term Code drop-down menu in the Promissory Agreement Term choose the term for which you are registering, click "Submit"
- 5) The Electronic Promissory Agreement may appear. If so, read and understand the agreement and click "I Agree" if you agree to the terms.
- 6) Beneath, click the words "Registration Form" to display the Registration Term screen
- 7) From the dropdown menu "Select A Term" choose the term for which you are registering, click "Submit"
- 8) In the Alternate Pin field, enter the PIN provided by your advisor, click "Submit"

# UNDERGRADUATE REGISTRATION PROCESS

#### To Add a Class

### If you already know the CRN

- 1) Click on "Add/Drop Classes" (in the Quick Links on the left side of screen)
- 2) Scroll down to Add Classes Worksheet
- 3) Enter CRN, or multiple CRNs one per field, of the 10 blank fields available
- 4) Click "Submit Changes" button beneath
- 5) The page will refresh and display the status of each class in the Current Schedule area

Note: If there is a problem with the registration, a section titled **Registration Add Errors** will appear below and explain the error.

### If you do not know the CRN

Basic Search - default view

- 1) Click "Search for a class" in Quick Links area or Class Search button at the bottom of the page
- 2) From the dropdown menu "Select A Term" choose the term to search, click "Submit"
- 3) In "Look Up Classes" Click to select the desired Subject from the alphabetical scrolling list
- 4) Click "Course Search"
- 5) Courses in that subject area are listed, with View Sections buttons to the right
- 6) Click the "View Sections" button for a course to view the availability

Advanced Search – used when looking for all courses related to a specific subject area required by a course, or a specific subject, time slot, etc.

- 1) Click "Search for a Class" in Quick Links area or "Class Search" button at the bottom of the page
- 2) From the dropdown menu "Select A Term" choose the term to search, click "Submit"
- 3) Without choosing a subject, scroll down to the bottom of the page and click "Advanced Search" to display numerous criteria to search
- 4) The more criteria that are chosen, the narrower the list of results

### Viewing the Search Results. The search results are displayed with column headings.

- Select: Square indicates an available course/section, (C) indicates closed section
- CRN: Identifies the CRN (Course Reference Number) if you should need to note it
- Subject area
- Crse: Course number (including preceding "0")
- Sec: Section identifier
- Days: Monday, Tuesday, Wednesday, ThuRsday, Friday, Saturday, SUnday
- **Time:** Time the course meets
- Cap: Seat capacity
- WL Cap or WL Rem: Waitlist Capacity or Waitlist Remaining seats
- Instructor: Instructor's name, if assigned
- · Location: Building and Room, if assigned

### Selecting the Class

- 1) Click the Check Box of the desired class in the Select column
- 2) Scroll to the bottom of the page and click the **Register** button in the lower left corner. You will be returned to the Add/Drop Classes page.
- 3) The status of the class is listed the Current Schedule area

Note: If there is a problem with the registration, a section titled **Registration Add Errors** will appear below and explain the error.

## UNDERGRADUATE REGISTRATION PROCESS

### Dropping a Class

- 1) If a course needs to be Dropped, click "Add/Drop Classes" from the Quick Links
- 2) Scroll down to Current Schedule
- 3) In the Action column select Drop/Web for course to be dropped
- 4) Scroll to the bottom of the page and click "Submit Changes." You will be returned to the Add/Drop Classes page.

#### Waitlist

#### To Place a Class on Waitlist

- 1) Search for the class. Once displayed, determine by viewing the **WL Rem** (Waitlist Remaining) column where a number greater than "0" indicates a waitlist is available.
- 2) Write down the CRN number
- 3) Scroll to the bottom of the page. Click "Register." You will be returned to the Add/Drop Classes page.
- 4) Scroll down to the Add Classes worksheet
- 5) Type in the CRN you wrote in to one of the 10 blank fields
- 6) Click "Submit Changes"
- 7) A registration Add Errors section will appear
- 8) Select Waitlist under the Action column
- 9) Click "Submit Changes"

**Remember to add labs when necessary.** If a student does not have a computer with Internet capabilities, they can use one in the computer labs, the library, or the Dolan School of Business. If a student needs assistance with registration, they should contact the Registrar's Office at 203–254–4288 (or x4288 on campus). **They SHOULD NOT call the Help Desk.** 

Remember, any student with a Financial or Dean of Student's "HOLD" will not be allowed to register.

#### **INTERNSHIPS**

Internships provide the opportunity for practical experience in a career field related to a student's major. Most departments and programs in the College of Arts and Sciences offer credit for internships in appropriate agencies and business firms in Fairfield, nearby communities, as well as New York City and New Haven. Majors who wish to take advantage of these opportunities should consult their department chair or program internship coordinator about eligibility requirements and other details.

Please visit fairfield.edu/internships for more information.

#### INDEPENDENT STUDY

Independent studies are available in most majors and programs in the College of Arts and Sciences. Students wishing to pursue an intensive research or other academic experience must consult first with a sponsoring faculty member.

# JESUIT UNIVERSITIES HUMANITARIAN ACTION NETWORK (JUHAN) FALL 2015 COURSES

The Jesuit Universities Humanitarian Action Network (JUHAN) was created to make sophistication in humanitarian response a hallmark of Jesuit undergraduate education. Grounded in the Jesuit tradition of developing "men and women for others," JUHAN seeks to advance both undergraduate humanitarian education by bringing students into the professional field at an early stage in their education as well as by providing students who are not pursuing humanitarian action careers with the knowledge and skills needed to fulfill their responsibilities as engaged citizens.

JUHAN focus on developing an educational program that places emphasis on the ethical dimensions of humanitarian action while leveraging the centuries-old Jesuit commitment to education globally to reach across institutional, national and international boundaries and provide students and faculty with a wide range of resources and opportunities. JUHAN also provides an opportunity for faculty, students and staff at Jesuit Universities to collaborate on joint project, research programs and curriculum development.

**Note:** For Professors and Timecodes – consult the Department Sections.

# SERVICE LEARNING FALL 2015 COURSES

Service Learning is a kind of experiential education that connects classroom learning with community service. In collaboration with community organizations, students learn about and apply tools of the academic discipline and specific course concepts in their service experiences. This combination enhances academic learning and civic awareness while also providing a meaningful service to and with the community.

Course credit and grading are for the learning not for the service. The service activities for the course are similar to the readings, lectures, class discussions and other assignments—all are contexts for student learning.

Courses will appear with the following notation in the right-hand column of the schedule of classes: SerL or SerL Option

**SerL** = all students in the course are required to participate in service learning.

**SerL Option** = students have a choice to participate in service learning as a final project and/or in lieu of another comparable project.

Course	Section	Title	Faculty	CRN	SerL/SerL Option

# CURRICULAR SEQUENCE FOR WATER FALL 2015 COURSES

### Faculty Facilitator: Prof. Jo Yarrington

The 2015-2016 academic year serves as the second of a two-year University campus-wide focus: WATER. The goal of offering a University focus is to highlight and promote interdisciplinary learning via a campus-wide conversation on a specific issue. The focus will offer students from all academic disciplines the opportunity to delve into the theme while pursuing their studies and offer more integrative learning practices.

# **NEW COURSE DESCRIPTIONS**

#### AY 115 - Biomedical Anthropology

This seminar-style class explores biological anthropology to examine the dynamic relationship between health, biology, and culture. Across cultures, geography, and time, we uncover the underlying processes that inhibit or enhance human health. From the biology of stress to the eradication of tuberculosis and Ebola, we'll see biological anthropology's invaluable contributions to modern medicine, public health, and global health management. Students will learn theoretical and applied approaches to understand the evolution and ecology of disease; human development and metabolism; and sexuality and gender; as well as health policy and medical practice (in terms of cultural universals, differences, and disparities). Three credits.

#### AE 272 - Ethics of Humanitarian Action

This course provides students with principles and methods of ethics that they will apply to issues of humanitarian action. Examples of humanitarian action to be considered in this course include the international humanitarian system run by states, non-governmental organizations (NGOs), the United Nations and its lead agencies and, increasingly, the private sector. Students also will learn about the development of humanitarian codes of conduct, values and principles, which they will evaluate in terms of their ethical content. Prerequisites: One PH or RS course. Three credits.

#### BI 317 – Epidemiology & Applied Biostatistics BI 317L – Epidemiology & Applied Biostatistics Lab

This course will introduce students to the fundamental concepts of epidemiology, which is the basis for public health research, as well as train students in the biostatistical techniques necessary to conduct epidemiological research. During the course, students will learn the basic principles of epidemiological research; during the lab, students will conduct statistical analysis techniques used in various types of research in the health sciences, and through a series of laboratory exercises and apply these techniques to work with and manipulate a national public health dataset in order to complete a research project. This course satisfies Core II elective requirements for the Biology major or minor. Prerequisites: BI 170, 171, 172 or BI 107/108. Sophomore enrollment by permission of the instructor. Four credits.

#### BI 381D - Seminar: Nutritional Epigenetics

This course satisfies the Capstone Requirement for Biology Majors. This seminar will cover emerging topics in nutritional epigenetics – the mechanisms by which nutrients regulate gene expression. Emphasis will be placed on genes regulated by essential dietary compounds (e.g. carbohydrates, lipids, vitamins and minerals) within the context of conditions such as cardiovascular disease, diabetes and cancer. Students will analyze and present scientific literature and write a grant proposal. Prerequisites: BI 170, 171, and 172, one course from the Molecular Block, senior status, or permission of the instructor. Three credits.

#### CO 102 - Introduction to Public Relations

This course introduces public relations as a field of study and as a practice. Through building critical thinking and considering ethical behaviors, this course will not only introduce you to the various types of public relations but will also help you to become a critical consumer of the public relations efforts taking place in the world around you while developing your own public relations tools and strategies. No prerequisites. Three credits.

#### EN 135 - Graphic Novels as Thriller and Chillers

This course will introduce students to the idea of graphic novels as literature that deals with serious subjects – ranging from social, political, cultural, to race-based and sexually sensitive issues – in ways that are hyperbolically dramatic and/or humorous. It has a strong digital component and students will be asked to work with and use a range of multimodal tools such as blogs, Wiki, Twitter, Animoto, and visual story-telling. Students will be trained to grasp the fact the graphic novels often reflect historical events, prominent ideological and socio-cultural attitudes of the time, and span the spectrum from propelling propaganda to mounting a critique. The graphic novel, also called a comic, has always enjoyed a loyal fan base, mostly amongst the younger generations. Prerequisites: EN 11 and 12. Three credits.

#### EN 336 - Seminar on Toni Morrison

A comprehensive study of the works of Toni Morrison, the course situates her novels and nonfiction prose in their historical and cultural contexts. Attention to narrative techniques as well as to theoretical approaches from a range of disciplines offers students the opportunity to explore topics including gender and slavery, violence and trauma, identity construction, Black masculinity, commodity culture and racialized identity, law and civil rights, accommodation and resistance, family structures, community, geography and location/dislocation/relocation, ethics and relation, and Black female sexualities. Prerequisite: One 200-level literature course. Three credits.

#### ENW 321 - Big Data Storytelling

This intermediate course synthesizes cutting-edge big data technologies and traditional news writing and aims to produce compelling stories by mining the enormous public data provided by government and non-profit organizations. Other than overviewing the construct of big data, its origin, and social impact, the course offers hands-on training on using intuitive tools to produce engaging data-driven stories. Students will walk through the entire production process: data access, retrieval, cleaning, analysis, and visualization. Principles of information visualization and interface design will be applied throughout the course, accompanied by in-depth discussions on legal and ethical challenges facing big data story telling. Prerequisite: ENW 220 or permission of the instructor. Three credits.

#### FTM 105B - American Film: Decades - 1960s

"You Say You Want a Revolution": Radical 60s in American Film

The 1960s began as a reaction to the bland conservatism of the 1950s. Revolution was in the air: political, cultural, sexual. The 60s were shocked and rocked by assassinations, war, and domestic upheaval. The Beatles made art out of pop music, and millions of young people decided to "make love, not war." A bewildering array of new words and phrases entered the national vocabulary: pop art, folk-rock, heavy metal, hippies, "freaks," "pigs," happenings, sit-in's, counter culture, commune, psychedelic, Vietnam, Woodstock, Black Panthers, defoliation, body-bag, mini-skirt, the Pill, LSD, and M.A.D (Mutually Assured Destruction). The Age was Aquarius, the Medium was the Message, and the message was "Turn on, Tune in, and Drop out." Old Hollywood died in the 1960s, and the MPAA ratings were born. It remained to be seen how American films would respond to the times. Three credits.

#### FTM 110A - Special Topics: Interactive Media and Digital Culture

This course will offer a critical introduction to new media technologies, digital cultures, and the emergent media texts that comprise the contemporary media landscape. We will explore theories and histories of "new" media and consider the extent to which the digital age is resonant with previous moments of technological shift. We will touch on some of the core issues at stake in digital culture: how digital technologies re-shape literacy and readings practices; piracy and copyright law; privacy and surveillance issues. But we will spend most of this course analyzing specific new media texts, such as video games, participatory/fan-produced media, and images of new technology in film and television, and considering how issues such as narrative, authorship, audience, and race/gender/sexual identity adjust to digital platforms. This course will inform students' understandings of the technologies that permeate everyday life and help to make them more critical and conscious users. Three credits.

#### HI 349 - The 1930s in America

This research seminar will use a range of books and primary documents to focus on key events and different historical interpretations of the United States during the Great Depression. The economic crisis defined the decade and propelled political, economic, social, and cultural changes. This era has immense relevance to contemporary political debates. The debate over the federal government's role in regulating the free market, the weakness of the labor movement, unemployment and the persistence of poverty, the increasing wealth gap, and the increasing racial edge in these issues have their origins in the policies first forged during the New Deal. Prerequisites: HI 10 and one 200-level History course. Three credits.

#### HI 383 - From Chocolate to Cocaine: Food, Consumption, and Commodities in Latin America, 1500 to Present

This upper level research seminar examines food and commodities as a critical part of the social and cultural history of Latin America. Through historical texts, cookbooks, literature, film, and food tastings, we will explore the history of food production, commodification, and consumption in Latin America, while paying close attention to the ways that cuisine has shaped cultural identity, social difference, and nationalisms over time. Prerequisites: HI 10 and one 200-level History course. Three credits.

#### MU 200B - Special Topics: Beethoven: His Life and Music

Ludwig van Beethoven's music has a unique hold on us: for two centuries, his compositions have stood firmly at the core of the Western musical canon. Called "the universal composer," his music seems to transcend time and place. Yet his music speaks powerfully to us of its own time and place, a time of profound social, political and human transformation. This course serves both as a broad introduction to Beethoven's music – instrumental, chamber, orchestral and choral – and to the time his music brings so vividly to life, a time of great human longing and achievement, of new horizons in human self-understanding. The course will include a close look at the composer's compelling life story and a close-up look at key masterworks including the 5th and 9th Symphonies, the "Emperor" Concerto, and the visionary late string quartets.

#### MU 200C - Special Topics: Hip Hop and Its Antecedents

Hip-hop is a cultural giant, but what do we really know about it? Where and why did it start? What is its relationship to Jazz, R&B, and funk; to poetry, signifying, and word play? And how much was hip-hop shaped by the economic and political forces around it? We will explore the influence and impact of the Harlem Renaissance and the Civil Rights movement and learn about some of the seminal artists who created the genre. The course will include site visits to the South Bronx, graffiti exhibits, and hip-hop dance classes, as well as the basics of being a DJ and MC. Three credits.

#### PH 281 - Philosophies of Love and Sex

This course examines some of the major trends within traditional and feminist philosophies of love and sex. Possible topics include the nature of erotic love, the construction of sexual activity, and the social/political reality of pornography and prostitution. Prerequisite: PH 101. Three credits.

#### PH 350 - Advanced Topics in Ethics

This course examines questions pertaining to the status of morality. What is a moral judgment? Are there moral truths? If some moral judgments are true, what make them true? Is morality something objective, or is it determined by communities or individuals? We will examine competing answers to these and other questions, as well as evaluate philosophical defenses of these various answers. Prerequisite: PH 101. Three credits.

#### PS 260 - Introduction to Biomedical Optics

This course introduces students to the applications of optics in medical diagnostics and imaging. Students will learn about basics of tissue optics, elastic scattering, absorption, fluorescence and Raman spectroscopies, and photon transport in random media, Monte Carlo simulations, microscopy, ultrafast lasers and detection systems. Applications would include non-invasive detection of cancer, atherosclerosis, and optical tomography. Three credits.

#### PO 129 - Politics of Humanitarian Action

This course introduces students to complex humanitarian crises and the challenges of responding. Students explore why the oftentroubled governance practices of humanitarian intervention makes this a highly contested, yet indispensable arena of global politics. The course examines enduring political and normative tensions at the core of the international humanitarian system run by states, non-governmental organizations (NGOs), the United Nations and its lead agencies, and increasingly, the private sector. Students use critical theories, ethical frameworks and other skillsets to explore questions such as the accountability of humanitarian actors to the people they aid in risk-laden operational environments. Three credits.

#### RS 267 - Mormonism: An American Church

Who are the Mormons? This course seeks to answer this very question. Beginning with the birth of its prophet Joseph Smith and proceeding into Mormon life in the 21st century, the course traces the history of Mormonism as it moved from millennial religious movement to formal Church. We will examine the scripture, beliefs, practices, and mission of Mormonism and how they function within the church and within the Mormon community. We will also explore the paradox of Mormonism's controversial reputation and its popularity, examining how Mormons have combatted negative perceptions and adapted in order to survive – and, ultimately, thrive. Prerequisite: RS 10 or RS 101. Three credits.

#### RS 286 - Buddhism in the United States

This course will explore the history, sources and forms of Buddhism that have prospered in the United States since the mid-19th century, with the emigration of Chinese to California. Subsequent developments will also be examined: Pure land, beat zen, hippie Buddhism, Tibetan Buddhism, and emigrant communities from Japan, China and Southeast Asia among others. The 'two communities' model (impoverished emigrant vs. wealthy convert Buddhism) will be explored. Visits to Buddhist centers in the Northeast will be part of the program, and if possible, visits from Buddhist representatives to the class. Film, literature and other media will inform the course as well. Prerequisite: RS 10 or RS 101. Three credits.

#### RS 379 - Islam, Race, Power

Students will undertake a critical investigation of "race" and "ethnicity" within Islam, from the classical period to the present. The course examines how different Muslims approached the concepts as well as how those concepts were applied to or imposed upon particular Muslim communities. The historical experience of Black Muslims serves as a recurring case study. Moreover, the relationship of race to power is also a central analytical theme. Topics to be discussed include the construction of "race," slavery and its abolition, the Black American Muslim experience, and Muslim theologies of liberation and resistance. The course is research and writing intensive. Prerequisite: RS 10 or RS 101. Three credits.

#### SA 100 - Experiments in Drawing

In this introductory course students will gain an expanded view of how seeing, drawing and thinking contribute to organizing and expressing one's visual thoughts and ideas. Through hands on studio projects visual thinking will be emphasized as a creative practice that augments intellectual thought and teaches problem solving skills. Through an interdisciplinary approach, students will discover new ways of organizing visual space and reflect on the myriad of approaches to working with their hands and new materials both found and new. Projects will include a wide range of mark making, collage, collotypes and other layering techniques. This course is designed to be open and accessible to all students. Three credits.
